How to Appear Normal at Social Events is an oddly cheering book of illustrated lists. Largely based on Lord Birthday's popular Instagram account, the book offers excessively absurd, occasionally wise advice on topics ranging from finding your life's purpose to defending yourself against forest clowns. (Hint: Set an oatmeal trap.)

The visionary author's masterpiece pulls us—along with her Black female hero—through time to face the horrors of slavery and explore the impacts of racism, sexism, and white supremacy then and now. Dana, a modern black woman, is celebrating her twenty-sixth birthday with her new husband when she is snatched abruptly from her home in California and transported to the antebellum South. Rufus, the white son of a plantation owner, is drowning, and Dana has been summoned to save him. Dana is drawn back repeatedly through time to the slave quarters, and each time the stay grows longer, more arduous, and more dangerous until it is uncertain whether or not Dana's life will end, long before it has a chance to begin.

The book as object, as content, as idea, as interface. What is the book in a digital age? Is it a physical object containing pages encased in covers? Is it a portable device that gives us access to entire libraries? The codex, the book as bound paper sheets, emerged around 150 CE. It was preceded by clay tablets and papyrus scrolls. Are those books? In this volume in the MIT Press Essential Knowledge series, Amaranth Borsuk considers the history of the book, the future of the book, and the idea of the book. Tracing the interrelationship of form and content in the book's development, she bridges book history, book arts, and electronic literature to expand our definition of an object we thought we knew intimately. Contrary to the many reports of its death (which has been blamed at various times on newspapers, television, and e-readers), the book is alive. Despite nostalgic paeans to the codex and its printed pages, Borsuk reminds us, the term "book" commonly refers to both medium and content. And the medium has proved to be malleable. Rather than pinning our notion of the book to a single form, Borsuk argues, we should remember its long history of transformation. Considering the book as object,

content, idea, and interface, she shows that the physical form of the book has always been the site of experimentation and play. Rather than creating a false dichotomy between print and digital media, we should appreciate their continuities.

The #1 New York Times bestselling, "must-read" (San Francisco Chronicle), "amazingly timely and stunningly accessible" (Jacqueline Woodson) exploration of race and racism from award-winning, beloved authors Jason Reynolds and Ibram X. Kendi, now in paperback. This is NOT a history book. This is a book about the here and now. A book to help us better understand why we are where we are. A book about race. The construct of race has always been used to gain and keep power, to create dynamics that separate and silence. This remarkable reimagining of Dr. Ibram X. Kendi's National Book Award-winning *Stamped from the Beginning* reveals the history of racist ideas in America, and inspires hope for an antiracist future. It takes you on a race journey from then to now, shows you why we feel how we feel, and why the poison of racism lingers. It also proves that while racist ideas have always been easy to fabricate and distribute, they can also be discredited. Through a gripping, fast-paced, and energizing narrative written by beloved award-

**From the acclaimed author of Conquistador comes this thrilling account of one of history's greatest adventures of discovery. With cinematic immediacy and meticulous attention to historical detail, here is the true story of a legendary sixteenth-century explorer and his death-defying navigation of the Amazon—river of darkness, pathway to gold. In 1541, the brutal conquistador Gonzalo Pizarro and his well-born lieutenant Francisco Orellana set off from Quito in search of La Canela, South America's rumored Land of Cinnamon, and the fabled El Dorado, "the golden man." Driving an enormous retinue of mercenaries, enslaved natives, horses, hunting dogs, and other animals across the Andes, they watched their proud expedition begin to disintegrate even before they descended into the nightmarish jungle, following the course of a powerful river. Soon hopelessly lost in the swampy labyrinth, their numbers diminishing daily through disease, starvation, and Indian attacks, Pizarro and Orellana made a fateful decision to separate. While Pizarro eventually returned home barefoot and in rags, Orellana and fifty-seven men, in a few fragile craft, continued downriver into the unknown reaches of the mighty Amazon, serenaded by native war drums and the eerie cries of exotic predators. Theirs would be the greater glory. Interweaving eyewitness accounts of the quest with newly uncovered details, Buddy Levy reconstructs the seminal journey that has electrified**

adventurers ever since, as Orellana became the first European to navigate and explore the entire length of the world's largest river. Levy gives a long-overdue account of the native populations—some peaceful and welcoming, offering sustenance and life-saving guidance, others ferociously hostile, subjecting the invaders to gauntlets of unremitting attack and intimations of terrifying rituals. And here is the Amazon itself, a powerful presence whose every twist and turn held the promise of new wonders both natural and man-made, as well as the ever-present risk of death—a river that would hold Orellana in its irresistible embrace to the end of his life. Overflowing with violence and beauty, nobility and tragedy, *River of Darkness* is both riveting history and a breathtaking adventure that will sweep readers along on an epic voyage unlike any other.

Combining trenchant philosophy with lyrical memoir, *Afropessimism* is an unparalleled account of Blackness. Why does race seem to color almost every feature of our moral and political universe? Why does a perpetual cycle of slavery—in all its political, intellectual, and cultural forms—continue to define the Black experience? And why is anti-Black violence such a predominant feature not only in the United States but around the world? These are just some of the compelling questions that animate *Afropessimism*, Frank B. Wilderson III's seminal work on the philosophy of Blackness. Combining precise philosophy with a torrent of memories, Wilderson presents the tenets of an increasingly prominent intellectual movement that sees Blackness through the lens of perpetual slavery. Drawing on works of philosophy, literature, film, and critical theory, he

shows that the social construct of slavery, as seen through pervasive anti-Black subjugation and violence, is hardly a relic of the past but the very engine that powers our civilization, and that without this master-slave dynamic, the calculus bolstering world civilization would collapse. Unlike any other disenfranchised group, Wilderson argues, Blacks alone will remain essentially slaves in the larger Human world, where they can never be truly regarded as Human beings, where, “at every scale of abstraction, violence saturates Black life.” And while Afropessimism delivers a formidable philosophical account of being Black, it is also interwoven with dramatic set pieces, autobiographical stories that juxtapose Wilderson’s seemingly idyllic upbringing in mid-century Minneapolis with the abject racism he later encounters—whether in late 1960s Berkeley or in apartheid South Africa, where he joins forces with the African National Congress. Afropessimism provides no restorative solution to the hatred that abounds; rather, Wilderson believes that acknowledging these historical and social conditions will result in personal enlightenment about the reality of our inherently racialized existence. Radical in conception, remarkably poignant, and with soaring flights of lyrical prose, Afropessimism reverberates with wisdom and painful clarity in the fractured world we inhabit. It positions Wilderson as a paradigmatic thinker and as a twenty-first-century inheritor of many of the African American literary traditions established in centuries past.

Essentialism isn't about getting more done in less time. It's about getting only the right things done. Only once we discern what is absolutely essential and eliminate everything else can we make our highest possible contribution toward things that truly matter. By forcing us to apply more selective criteria for where to spend our precious time and energy, the disciplined pursuit of less empowers us to reclaim control of our own choices, instead of giving others the implicit permission to choose for us. Essentialism is not one more thing to do. It's a whole new way of doing less, but better, in every area of our lives"--Back cover.**
