Lillian and Madison were unlikely roommates and yet inseparable friends at their elite boarding school. But then Lillian

had to leave the school unexpectedly in the wake of a scandal and they've barely spoken since. Until now, when Lillian gets a letter from Madison pleading for her help. Madison's twin stepkids are moving in with her family and she wants Lillian to be their caretaker. However, there's a catch: the twins spontaneously combust when they get agitated, flames igniting from their skin in a startling but beautiful way. Lillian is convinced Madison is pulling her leg, but it's the truth. Thinking of her dead-end life at home, the life that has consistently disappointed her, Lillian figures she has

nothing to lose. Over the course of one humid, demanding summer, Lillian and the twins learn to trust each other—and stay cool—while also staying out of the way of Madison’s buttoned-up politician husband. Surprised by her own ingenuity yet unused to the intense feelings of protectiveness she feels for them, Lillian ultimately begins to accept that she needs these strange children as much as they need her—urgently and fiercely. Couldn’t this be the start of the amazing life she’d always hoped for? With white-hot wit and a big, tender heart, Kevin Wilson has written his best book yet—a most

unusual story of parental love.

This wickedly wise (and wisecracking) parody of classic fairy tales redefines happily ever after for the modern feminist era. You know what? It's super creepy to kiss a woman who is unconscious. And you know what else? The way out of poverty isn't by marrying a rich dude -- or by wearing fragile footwear, for that matter. And while we're at it, why is the only woman who lives with seven men expected to do the cooking, cleaning, and laundry? Fairytales need a reboot, and comedy queens Laura Lane and Ellen Haun are the women to do it. In Cinderella and the Glass

Ceiling, they offer a rollicking parody of classic (read: patriarchal) tales that turns sweet, submissive princesses into women who are perfectly capable of being the heroes of their own stories. Mulan climbs the ranks in the army but wages a different war when she finds out she's getting paid less than her fellow male captains, Wendy learns never to trust a man-boy stalking her window, Sleeping Beauty's prince gets a lesson in consent, and more. Busting with laugh-out-loud, razor-sharp twists to these outdated tales, Cinderella and the Glass Ceiling is fun, magical, necessary, and totally woke.

Sinclair (1878–1968). Sinclair wrote the novel to portray the lives of immigrants in the United States in Chicago and similar industrialized cities. Many readers were most concerned with his exposure of health violations and unsanitary practices in the American meatpacking industry during the early 20th century, based on an investigation he did for a socialist newspaper. The book depicts working class poverty, the lack of social supports, harsh and unpleasant living and working conditions, and a

hopelessness among many workers. These elements are contrasted with the deeply rooted corruption of people in power. A review by the writer Jack London called it, "the Uncle Tom's Cabin of wage slavery." Sinclair was considered a muckraker, or journalist who exposed corruption in government and business. He first published the novel in serial form in 1905 in the Socialist newspaper, Appeal to Reason, between February 25, 1905, and November 4, 1905. In 1904, Sinclair had spent seven weeks gathering information

The Step Back philosophy is a simple concept for a strategy that requires regular practice to master - and the rewards are well worth the effort.

Stepping back prevents you from contributing to disorder. It allows you to be an observer, opening your field of vision to every aspect of the matter at hand, broadening your perspective and clarifying your judgement. When you can

see the issue from every angle, your awareness is enhanced. You develop a fresh interpretation of the situation. Now, instead of an impulsive reaction, you choose a thoughtful action. Your feelings shift, your emotions are in check. You no longer become entangled in the confused energies of the moment. Your composure changes the prevailing condition - if only for yourself. When you step back, you move forward on your own path to liberation.

questions, including: How can I be a caretaker and a key emotional connector in the family if the children don't accept my influence? How should I cope with children who are confused about their family and torn between loyalty to their biological mother and me? When should I step back in conflicts and when should I insist that my husband stand up for me? In addition it addresses the spiritual and emotional climate of the home, providing perspective and guidelines to help stepmothers and their families thrive.
