INVESTIGATIVE REPORTERS & EDITORS Book Award, Finalist 2014 "Greenberg's breezy, engaging style weaves history, politics, environmental policy, and marine biology." --New Yorker From the acclaimed author of *Four Fish* and *The Omega Principle*, Paul Greenberg uncovers the tragic unraveling of the nation's seafood supply—telling the surprising story of why Americans stopped eating from their own waters in *American Catch*. In 2005, the United States imported five billion pounds of seafood, nearly double what we imported twenty years earlier. Bizarrely, during that same period, our seafood exports quadrupled. *American Catch* examines New York oysters, Gulf shrimp, and Alaskan salmon to reveal how it came to be that 91 percent of the seafood Americans eat is foreign. In the 1920s, the average New Yorker ate six hundred local oysters a year. Today, the only edible oysters lie outside city limits. Following the trail of environmental desecration, Greenberg comes to view the New York City oyster as a reminder of what is lost when local waters are not valued as a food source. Farther south, a different catastrophe threatens another seafood-rich environment. When Greenberg visits the Gulf of Mexico, he arrives expecting to learn of the Deepwater Horizon oil spill's lingering effects on shrimpers, but instead finds that the more immediate threat to business comes from overseas. Asian-farmed shrimp—cheap, abundant, and a perfect vehicle for the frying and sauces Americans love—have flooded the American market. Finally, Greenberg visits Bristol Bay, Alaska, home to the biggest wild sockeye salmon run left in the world. A pristine, productive fishery, Bristol Bay is now at great risk: The proposed Pebble Mine project could under-mine the very spawning grounds that make this great run possible. In his search to discover why this pre-cious renewable resource isn't better protected, Green-berg encounters a shocking truth: the great majority of Alaskan salmon is sent out of the country, much of it to Asia. Sockeye salmon is one of the most nutritionally dense animal proteins on the planet, yet Americans are shipping it abroad. Despite the challenges, hope abounds. In New York, Greenberg connects an oyster restoration project with a vision for how the bivalves might save the city from rising tides. In the Gulf, shrimpers band together to offer local catch direct to consumers. And in Bristol Bay, fishermen, environmentalists, and local Alaskans gather to roadblock Pebble Mine. With *American Catch*, Paul Greenberg proposes a way to break the current destructive patterns of consumption and return American catch back to American eaters. The Washington Post: "Americans need to eat more American seafood. It's a point [Greenberg] makes compellingly clear in his new book, *American Catch: The Fight for our Local Seafood*...Greenberg had at least one convert: me." Jane Brody, New York Times "Excellent." The Los Angeles Times "If this makes it sound like *American Catch* is another of those dry, haranguing issue-driven books that you read mostly out of obligation, you needn't worry. While Greenberg has a firm grasp of the facts, he also has a storyteller's knack for framing them in an entertaining way." The Guardian (UK) "A wonderful new book" Tom Colicchio: "This is on the top of my summer reading list. A Fast Food Nation for fish."

Everyone knows Jim will be the star linebacker on the team if he can only conquer his fear of being tackled, but it takes a boy in a wheelchair to teach him that kind of courage.

A confident but inexperienced cat believes that because she has never seen a mouse she has scared them all away, while unaware that an intrepid little mouse is hiding on every page. By the creator of *The Black Rabbit*.

From J.K. Rowling, a warm, fast-paced, funny fairy tale of a fearsome monster, thrilling adventure, and hope against all odds. Once upon a time there was a tiny kingdom called Cornucopia, as rich in happiness as it was in gold, and famous for its food. From the delicate cream cheeses of Kurdsburg to the Hopes-of-Heaven pastries of Chouxville, each was so delicious that people wept with joy as they ate them. But even in this happy kingdom, a monster lurks. Legend tells of a fearsome creature living far to the north in the Marshlands... the Ickabog. Some say it breathes fire, spits poison, and roars through the mist as it carries off wayward sheep and children alike. Some say it's just a myth... And when that myth takes on a life of its own, casting a shadow over the kingdom, two children - best friends Bert and Daisy - embark on a great adventure to untangle the truth and find out where the real monster lies, bringing hope and happiness to Cornucopia once more. Featuring full color illustrations by children from across the United States and Canada, this original fairy tale from one of the world's most celebrated storytellers will captivate readers of all ages. Before the Internet became widely known as a global tool for terrorists, one perceptive U.S. citizen recognized its ominous potential. Armed with clear evidence of computer espionage, he began a highly personal quest to expose a hidden network of spies that threatened national security. But would the authorities back him up? Cliff Stoll's dramatic firsthand account is "a computer-age detective story, instantly fascinating [and] astonishingly gripping" (Smithsonian). Cliff Stoll was an astronomer turned systems manager at Lawrence Berkeley Lab when a 75-cent accounting error alerted him to the presence of an unauthorized user on his system. The hacker's code name was "Hunter"—a mysterious invader who managed to break into U.S. computer systems and steal sensitive military and security information. Stoll began a one-man hunt of his own: spying on the spy. It was a dangerous game of

deception, broken codes, satellites, and missile bases—a one-man sting operation that finally gained the attention of the CIA . . . and ultimately trapped an international spy ring fueled by cash, cocaine, and the KGB.

As a mystery, historical fiction, and love letter to 1950s Brooklyn, this novel succeeds on every level." —School Library Journal, starred review "Avi's tale of one Brooklyn family living in a time of intolerance effectively explores the natures of suspicion, loyalty, and freedom, following a young protagonist who comes to learn the importance of freedom of speech and 'staying true to your own thoughts.'" —The Horn Book Magazine "An involving, twisty mystery, grounded by the palpable emotional threat of Pete's father being taken away. An accomplished historical mystery by one of kid lit's most reliable craftspeople." —Booklist "Thought-provoking . . . In partnership with the Centre for Addiction and Mental Health (CAMH), Tundra is proud to launch an important series of books for children who have to cope with adult-sized problems. Young Alex's father had been a policeman until he began to suffer from depression, perhaps the most common mental health issue we face. Alex's questions are those that are often asked by the children of parents who have depression: is the parent simply lazy? Does he no longer care? And is it something I can catch, like a cold? In simple, straightforward language, the book explains what depression is and how it is treated. It also prepares a child for working with a helping professional. And perhaps most important, it reassures a child that he or she is not alone. Written by Canada's foremost experts in the field, this is an important book to spur discussion and allay fears of those affected by depression.
