

Emc Mirrors Windows Connecting With Literature

"Mirrors & Windows: Connecting with Literature is a comprehensive language arts curriculum that meets 100% of the Texas Educational Knowledge Expectations for Language Arts and Reading and integrates the four domains of language: listening, speaking, reading, and writing, through the seven strands of developing and sustaining foundational language skills; comprehension; response; multiple genres; author's purpose and craft; composition; and inquiry and research."--Publisher's description.

Aligned to the Common Core State Standards (CCSS) for English Language Arts, this seven-level program is built on a collection of rich, diverse, and timeless writings by renowned, award-winning authors. Mirrors & Windows challenges students to reach their maximum potential while differentiating instruction for individual learners. Using a gradual release approach to reading, students will achieve a deep comprehension of the material and a greater appreciation of the literary genres. They will learn to recognize and make connections between the selections, the world, and themselves. Along the way, they will discover a love of literature that will grow throughout their lives--Publisher.

As organizations strive to do more with less, IBM® DB2® for Linux, UNIX, and Windows provides various built-in high availability features. DB2 further provides high availability solutions by using enterprise system resources with broad support for clustering software, such as IBM PowerHA® SystemMirror®, IBM Tivoli® System Automation for Multiplatforms (Tivoli SA MP), and Microsoft Windows Cluster Server. This IBM Redbooks® publication describes the DB2 high availability functions and features, focusing on High Availability Disaster Recovery (HADR) in the OLTP environment. The book provides a detailed description of HADR, including setup, configuration, administration, monitoring, and preferred practices. This book explains how to configure Cluster software PowerHA, Tivoli SA MP, and MSCS with DB2 and show how to use these products to automate HADR takeover. DB2 also provides unprecedented enterprise-class disaster recovery capability. This book covers single system view backup, backup and restore with snapshot backup, and the db2recovery command, in detail. This book is intended for database administrators and information management professionals who want to design, implement, and support a highly available DB2 system.

THE STORY: In this transcendently powerful new adaptation by Wendy Kesselman, Anne Frank emerges from history a living, lyrical, intensely gifted young girl, who confronts her rapidly changing life and the increasing horror of her time with aston
