

## Five Days At Memorial

**Five Days at Memorial** Life and Death in a Storm-ravaged Hospital  
Crown Publishing Group (NY)

**An experienced humanitarian worker who has helped the refugees in Rwanda, Sierra Leone, Darfur and Haiti gives an insider's view of the chaos and danger involved in such a pursuit, as well as the often-wild social lives that some workers lead to deal with the stress. Original.**

**In Sunlight, in a Beautiful Garden is the story of a bittersweet romance set against the backdrop of the Johnstown, Pennsylvania, flood -- a tragedy that cost some 2,200 lives when the South Fork Dam burst on Memorial Day weekend, 1889. The dam was the site of a gentlemen's club that attracted some of the wealthiest industrialists of the day -- Henry Clay Frick, Andrew Mellon, and Andrew Carnegie -- and served as a summertime idyll for the families of the rich. In Sunlight, in a Beautiful Garden imagines the lives that were lived, lost, and irreparably changed by a tragedy that could have been averted.**

**In April 1992, a handful of young physicians, not one of them a surgeon, was trapped along with 50,000 men, women, and children in the embattled enclave of Srebrenica, Bosnia-Herzegovina. There the doctors faced the most intense professional, ethical, and personal predicaments of their lives. Drawing on extensive interviews, documents, and recorded materials she collected over four and a half years, doctor and Pulitzer Prize-winning journalist Sheri Fink tells the harrowing--and ultimately enlightening--story of these physicians and the three who try to help them: an idealistic internist from Doctors without Borders, who hopes that interposition of international aid workers will help prevent a massacre; an aspiring Bosnian surgeon willing to walk through minefields to reach the civilian wounded; and a Serb doctor on the opposite side of the front line with the army that is intent on destroying his former colleagues. With limited resources and a makeshift hospital overflowing with patients, how can these doctors decide who to save and who to let die? Will their duty to treat patients come into conflict with their own struggle**

**to survive? And are there times when medical and humanitarian aid ironically prolong war and human suffering rather than helping to relieve it?**

**Is Nick Allen a troublemaker? He really just likes to liven things up at school -- and he's always had plenty of great ideas. When Nick learns some interesting information about how words are created, suddenly he's got the inspiration for his best plan ever...the frindle. Who says a pen has to be called a pen? Why not call it a frindle? Things begin innocently enough as Nick gets his friends to use the new word. Then other people in town start saying frindle. Soon the school is in an uproar, and Nick has become a local hero. His teacher wants Nick to put an end to all this nonsense, but the funny thing is frindle doesn't belong to Nick anymore. The new word is spreading across the country, and there's nothing Nick can do to stop it.**

**SHORTLISTED FOR THE BAILEYâ€(tm)S WOMENâ€(tm)S PRIZE FOR FICTION 2014. From the award-winning author of â€~Half of a Yellow Sun,â€(tm) a powerful story of love, race and identity. As teenagers in Lagos, Ifemelu and Obinze fall in**

**love. Their Nigeria is under military dictatorship, and people are fleeing the country if they can. The self-assured Ifemelu departs for America. There she suffers defeats and triumphs, finds and loses relationships, all the while feeling the weight of something she never thought of back home: race. Obinze had hoped to join her, but post-9/11 America will not let him in, and he plunges into a dangerous, undocumented life in London. Thirteen years later, Obinze is a wealthy man in a newly democratic Nigeria, while Ifemelu has achieved success as a blogger. But after so long apart and so many changes, will they find the courage to meet again, face to face? Fearless, gripping, spanning three continents and numerous lives, the National Book Critics Circle Award-winning *Americanah* is a richly told story of love and expectation set in today's globalized world.**

**“You might come back, because you’re young, but I will not come back.”—Marceline Loridan’s father to her, 1944** A runaway bestseller in France, *But You Did Not Come Back* has already been the subject of a French media storm and hailed as

**an important new addition to the library of books dealing with the Holocaust. It is the profoundly moving and poetic memoir by Marceline Loridan-Ivens, who at the age of fifteen was arrested in occupied France, along with her father. Later, in the camps, he managed to smuggle a note to her, a sign of life that made all the difference to Marceline—but he died in the Holocaust, while Marceline survived. In *But You Did Not Come Back*, Marceline writes back to her father, the man whose death overshadowed her whole life. Although her grief never diminished in its intensity, Marceline ultimately found her calling, working as both an activist and a documentary filmmaker. But now, as France and Europe in general faces growing anti-Semitism, Marceline feels pessimistic about the future. Her testimony is a memorial, a confrontation, and a deeply affecting personal story of a woman whose life was shattered and never totally rebuilt.**

**“Anyone who is interested in Hurricane Katrina, and in America’s failing infrastructure, will want to read this book . . . a fast-paced narrative.” —Scott G. Knowles, Drexel University**

**2020 Nautilus Silver Winner** In the aftermath of one of the worst disasters in US history, **Words Whispered in Water** tells the story of one woman's fight, against all odds, to expose a mammoth federal agency—and win. In 2005, the entire world watched as a major US city was nearly wiped off the map. The levees ruptured and New Orleans drowned. But while newscasters attributed the New Orleans flood to “natural catastrophes” and other types of disasters, citizen investigator Sandy Rosenthal set out to expose the true culprit and compel the media and government to tell the truth. This is her story. When the protective steel flood-walls broke, the Army Corps of Engineers—with cooperation from big media—turned the blame elsewhere. In the chaotic aftermath, Rosenthal heroically exposes the federal agency's egregious design errors and changes the narrative surrounding the New Orleans flood. This engaging and revealing tale of man versus nature and man versus man is a horror story, a mystery, and David and Goliath story all in one. “Reveals what it takes to hold the powerful to account.” ?Publishers Weekly “There are only a few civilians

**that fight like real warriors. Sandy Rosenthal is one of them.”  
?Russel L. Honoré, Lieutenant General, United States Army  
(Ret.)**

## Read Free Five Days At Memorial

Paints a portrait of the American spiritual landscape by profiling religious radicals, realists and escapists from a congregation of urban anarchists to a youth evangelist in this linked narrative from the author of best-selling *The Family*. 15,000 first printing.

The definitive history of Katrina: an epic of citymaking, revealing how engineers and oil executives, politicians and musicians, and neighbors black and white built New Orleans, then watched it sink under the weight of their competing ambitions. Hurricane Katrina made landfall in New Orleans on August 29, 2005, but the decisions that caused the disaster extend across the twentieth century. After the city weathered a major hurricane in 1915, its Sewerage and Water Board believed that developers could safely build housing away from the high ground near the Mississippi. And so New Orleans grew in lowlands that relied on significant government subsidies to stay dry. When the flawed levee system surrounding the city and its suburbs failed, these were the neighborhoods that were devastated. The homes that flooded belonged to Louisianans black and white, rich and poor. Katrina's flood washed over the twentieth-century city.

## Read Free Five Days At Memorial

The flood line tells one important story about Katrina, but it is not the only story that matters. Andy Horowitz investigates the response to the flood, when policymakers reapportioned the challenges the water posed, making it easier for white New Orleanians to return home than it was for African Americans. And he explores how the profits and liabilities created by Louisiana's oil industry have been distributed unevenly among the state's citizens for a century, prompting both dreams of abundance—and a catastrophic land loss crisis that continues today. Laying bare the relationship between structural inequality and physical infrastructure—a relationship that has shaped all American cities—Katrina offers a chilling glimpse of the future disasters we are already creating.

From the co-founders of Havenly comes “a perfect read for anyone looking to infuse more personality and style into their space—on their own time and budget, and in their own unique way” (Rachel Zoe). “Not only do Lee and Emily unpack all their tips for creating a space that looks as good as it feels, but they do it in a way that is made for real-life application.”—Bobby Berk, design expert and host of Netflix's *Queer Eye* Interior design

## Read Free Five Days At Memorial

can be daunting, and as a result, many of us never even attempt to design our own homes. In *Design the Home You Love*, Havenly founders Lee Mayer and Emily Motayed break down the ambiguous world of home design. First you learn how to identify your own style (whether you're a fan of Parisian Modern or California Casual) and then how to incorporate furniture that matches your style and fits your budget. *Design the Home You Love* takes you step-by-step and room-by-room through each part of the house to help you fulfill your home's potential. Whether you're looking to give your home a complete makeover, spruce up your rental apartment, or merely take your living room from blah to fab, Lee and Emily bring fresh ideas, advice, and inspiration to the table. Illustrated with eye-catching photography and livable inspiration from real-life clients, this is the interior design book that finally makes it possible for us all to achieve our design goals.

Uses graphic novel format to depict the events of Hurricane Katrina through six true stories of New Orleanians who survived the storm, including Denise, who experienced the chaos of the Superdome, and a doctor whose French Quarter home was unscathed.

WINNER OF THE NATIONAL BOOK AWARD 2011

An investigative journalist revisits Hurricane Katrina's immediate damage, the city of New Orleans' efforts to rebuild itself, and the storm's lasting effects on the psychic, racial, and social fabric of the city.

From a Pulitzer Prize-winning historian comes a riveting history of New York's iconic public hospital that charts the turbulent rise of American medicine. Bellevue Hospital, on New York City's East Side, occupies a colorful and horrifying place in the public imagination: a den of mangled crime victims, vicious psychopaths, assorted derelicts, lunatics, and exotic-disease sufferers. In its two and a half centuries of service, there was hardly an epidemic or social catastrophe—or groundbreaking scientific advance—that did not touch Bellevue. David Oshinsky, whose last book, *Polio: An American Story*, was awarded a Pulitzer Prize, chronicles the history of America's oldest hospital and in so doing also charts the rise of New York to the nation's preeminent city, the path of American medicine from butchery and quackery to a professional and scientific endeavor, and the growth of a civic institution. From its origins in 1738

## Read Free Five Days At Memorial

as an almshouse and pesthouse, Bellevue today is a revered public hospital bringing first-class care to anyone in need. With its diverse, ailing, and unprotesting patient population, the hospital was a natural laboratory for the nation's first clinical research. It treated tens of thousands of Civil War soldiers, launched the first civilian ambulance corps and the first nursing school for women, pioneered medical photography and psychiatric treatment, and spurred New York City to establish the country's first official Board of Health. As medical technology advanced, "voluntary" hospitals began to seek out patients willing to pay for their care. For charity cases, it was left to Bellevue to fill the void. The latter decades of the twentieth century brought rampant crime, drug addiction, and homelessness to the nation's struggling cities—problems that called a public hospital's very survival into question. It took the AIDS crisis to cement Bellevue's enduring place as New York's ultimate safety net, the iconic hospital of last resort. Lively, page-turning, fascinating, Bellevue is essential American history.

One of the few inspirational stories that came out of Hurricane

## Read Free Five Days At Memorial

Katrina was the rescue of Tulane University Hospital and Clinic. During the days immediately following the New Orleans flood, Nashville-based hospital company HCA masterminded and financed the rescue of every Tulane patient, staffer and family member a total of 1,200 people in all. This is the inside story of how the company did it; what the administration knew and didnt know; how doctors and nurses cared for patients under difficult conditions; how dozens of helicopters executed the rescue safely. This book also tells the story of how Tulanes staff and administration helped rescue around 50 patients from other New Orleans hospitals, in spite of having almost no communication with those hospitals along the way.

The acclaimed National Book Award winner gives us a collection of spellbinding new essays that, read together, form a jigsaw-puzzle portrait of an extraordinary man. With the publication of his best-selling *Of Wolves and Men*, and with the astonishing originality of *Arctic Dreams*, Barry Lopez established himself as that rare writer whose every book is an event, for both critics and his devoted readership. Now, in *About This Life*, he takes us on a literal and figurative journey across the terrain of

## Read Free Five Days At Memorial

autobiography, assembling essays of great wisdom and insight. Here is far-flung travel (the beauty of remote Hokkaido Island, the over-explored Galápagos, enigmatic Bonaire); a naturalist's contention (Why does our society inevitably strip political power from people with intimate knowledge of the land small-scale farmers, Native Americans, Eskimos, cowboys?); and pure adventure (a dizzying series of around-the-world journeys with air freight everything from penguins to pianos). And here, too, are seven exquisite memory pieces hauntingly lyrical yet un sentimental recollections that represent Lopez's most personal work to date, and which will be read as classics of the personal essay for years to come. In writing about nature and people from around the world, by exploring the questions of our age, and, above all, by sharing a new openness about himself, Barry Lopez gives us a book that is at once vastly erudite yet intimate: a magically written and provocative work by a major American writer at the top of his form.

**“I am doomed to remember a boy with a wrecked voice—not because of his voice, or because he was the smallest person I ever knew, or even because he was the instrument of my mother’s death, but because he was the reason I believe in God; I am a Christian because of Owen Meany.” In the summer of 1953, two eleven-year-old boys—best friends—are playing in a Little League baseball game in Gravesend, New Hampshire. One of the boys hits a foul ball that kills the other boy’s mother. The boy who hits the ball**

**doesn't believe in accidents; Owen Meany believes he is God's instrument. What happens to Owen, after that 1953 foul ball, is extraordinary and terrifying.**

**Defending Hurricane Katrina's most notorious couple. In the media storm that followed Hurricane Katrina in 2005, nursing home owners Sal and Mabel Mangano were vilified for allegedly causing the deaths of 35 residents of St. Rita's Nursing Home in low-lying St. Bernard Parish. This book, written by the lawyer who defended them, reveals the gripping, true story behind the couple's heartrending decision not to evacuate and their persecution at the hands of the government sworn to protect them.**

**"Abbie Hoffman, Yippie non-leader, notorious dope addict and up-and-coming rock group (the WHAT), is currently on trial with seven others for conspiracy to incite riot during the Democratic Convention. When he returned from the Woodstock Festival he had five days before leaving for Chicago to prepare for the trial. Woodstock Nation, which the author wrote in longhand while lying upside down, stoned, on the floor of an unused office of the publisher, is the product of those five days. Other works by Mr. Hoffman include Revolution for the Hell of It and Fuck the System,**

**which he describes as a "tender love epic"."-- Back cover.  
A Pulitzer Prize-winning doctor, reporter and author of War Hospital reconstructs five days at Memorial Medical Center after Hurricane Katrina destroyed its generators to reveal how caregivers were forced to make life-and-death decisions without essential resources. Reprint. A best-selling book. On the NYT list of 10 Best Books of 2013.**

**The book that finally gives a physician's inside story of the evacuation of Memorial Medical Center following Katrina — a gripping tale of abandonment and survival. A toxic stew of floodwaters surrounded Memorial Medical Center in New Orleans after Katrina when the levees broke. Over two thousand people were trapped in the squalid conditions without security as the death toll steadily rose inside. Bodies stacked up in the chapel as the temperature soared in the overcrowded hospital and the situation became increasingly desperate. Doctors, nurses, and staff worked around the clock, caring for those inside and trying to evacuate the facility, also known as Baptist Hospital. Allegations of euthanasia would later make headlines across the country and be investigated by state and local officials. Code Blue: A Katrina**

**Physician's Memoir finally tells the inside story of the hellish nightmare those who struggled to survive the ordeal were cast into. Dr. Richard Deichmann, the hospital's chief of medicine and one of the leaders of the evacuation, gives his compelling account of the rapidly deteriorating state of affairs at the hospital. He takes us through the daily horrors and numbing disappointments. This gripping tale of survival, despite betrayal and abandonment by the authorities, may change forever the way you view the threat of a mass disaster. What Others are Saying about Code Blue: A Katrina Physician's Memoir As a physician who has been on hurricane duty for prior storms, I thought I could imagine what it would be like if we were hit by a severe storm. I was wrong. This book should serve as a warning about what can happen when basic modern conveniences such as power, running water, communications and safety are taken away. - Karen Blessey, MD**

**A journey around the United States in search of the truth about the threat of earthquakes leads to spine-tingling discoveries, unnerving experts, and ultimately the kind of preparations that will actually help guide us through disasters. It's a road trip full of surprises. Earthquakes. You need to worry about them only if you're in San**

**Francisco, right? Wrong. We have been making enormous changes to subterranean America, and Mother Earth, as always, has been making some of her own. . . . The consequences for our real estate, our civil engineering, and our communities will be huge because they will include earthquakes most of us do not expect and cannot imagine—at least not without reading Quakeland. Kathryn Miles descends into mines in the Northwest, dissects Mississippi levee engineering studies, uncovers the horrific risks of an earthquake in the Northeast, and interviews the seismologists, structural engineers, and emergency managers around the country who are addressing this ground shaking threat. As Miles relates, the era of human-induced earthquakes began in 1962 in Colorado after millions of gallons of chemical-weapon waste was pumped underground in the Rockies. More than 1,500 quakes over the following seven years resulted. The Department of Energy plans to dump spent nuclear rods in the same way. Evidence of fracking’s seismological impact continues to mount. . . . Humans as well as fault lines built our “quakeland”. What will happen when Memphis, home of FedEx's 1.5-million-packages-a-day hub, goes offline as a result of an earthquake along the unstable Reelfoot Fault? FEMA**

**has estimated that a modest 7.0 magnitude quake (twenty of these happen per year around the world) along the Wasatch Fault under Salt Lake City would put a \$33 billion dent in our economy. When the Fukushima reactor melted down, tens of thousands were displaced. If New York's Indian Point nuclear power plant blows, ten million people will be displaced. How would that evacuation even begin? Kathryn Miles' tour of our land is as fascinating and frightening as it is irresistibly compelling.**

**"Following the death of her father, journalist and hospice volunteer Ann Neumann sets out to examine what it means to die well in the United States. If a good death exists, what does it look like? This question lies at the heart of Neumann's rigorously researched and intimately told journey along the ultimate borderland of American life: American death. From church basements to hospital wards to prison cells, Neumann charts the social, political, religious, and medical landscape to explore how we die today. The Good Death weaves personal accounts with a historical exploration of the movements and developments that have changed the ways we experience death. With the diligence of a journalist and the compassion of a caregiver, Neumann provides a portrait of death in**

**the United States that is humane, beautifully written, and essential to our greater understanding of the future of end-of-life care"--**  
**A harrowing story of blue on black violence, of black lives that seemingly did not matter. On September 4, 2005, six days after Hurricane Katrina's landfall in New Orleans, two groups of people intersected on the Danziger Bridge, a low-rising expanse over the Industrial Canal. One was the police who had stayed behind as Katrina roared near, desperate to maintain control as their city spun into chaos. The other was the residents forced to stay behind with them during the storm and, on that fateful Sunday, searching for the basics of survival: food, medicine, security. They collided that morning in a frenzy of gunfire. When the shooting stopped, a gentle forty-year-old man with the mind of a child lay slumped on the ground, seven bullet wounds in his back, his white shirt turned red. A seventeen-year-old was riddled with gunfire from his heel to his head. A mother's arm was blown off; her daughter's stomach gouged by a bullet. Her husband's head was pierced by shrapnel. Her nephew was shot in the neck, jaw, stomach, and hand. Like all the other victims, he was black—and unarmed. Before the blood had dried on the pavement, the shooters, each a member of the New**

**Orleans Police Department, and their supervisors hatched a cover-up. They planted a gun, invented witnesses, and charged two of their victims with attempted murder. At the NOPD, they were hailed as heroes. Shots on the Bridge explores one of the most dramatic cases of police violence seen in our country in the last decade—the massacre of innocent people, carried out by members of the NOPD, in the brutal, disorderly days following Hurricane Katrina. It reveals the fear that gripped the police of a city slid into anarchy, the circumstances that drove desperate survivors to the bridge, and the horror that erupted when the police opened fire. It carefully unearths the cover-up that nearly buried the truth. And finally, it traces the legal maze that, a decade later, leaves the victims and their loved ones still searching for justice. This is the story of how the people meant to protect and serve citizens can do violence, hide their tracks, and work the legal system as the nation awaits justice. Named one of the top books of 2015 by NewsOne Now, and named one of the best books of August 2015 by Apple Winner of the 2015 Investigative Reporters and Editors Book Award**

**The Girl Who Was Born Too Soon**

***A micro-preemie fights for survival in this extraordinary and gorgeously told memoir by her parents, both award-winning journalists. Juniper French was born four months early, at 23 weeks' gestation. She weighed 1 pound, 4 ounces, and her twiggy body was the length of a Barbie doll. Her head was smaller than a tennis ball, her skin was nearly translucent, and through her chest you could see her flickering heart. Babies like Juniper, born at the edge of viability, trigger the question: Which is the greater act of love -- to save her, or to let her go? Kelley and Thomas French chose to fight for Juniper's life, and this is their incredible tale. In one exquisite memoir, the authors explore the border between what is possible and what is right. They marvel at the science that conceived and sustained their daughter and the love that made the difference. They probe the bond between a mother and a baby, between a husband and a wife. They trace the journey of their family from its fragile beginning to the miraculous survival of their now thriving daughter.***

***What Hurricane Katrina reveals about the fault lines of race and poverty in America-and what lessons we must take from the flood-from best-selling***

***"hip-hop intellectual" Michael Eric Dyson Does George W. Bush care about black people? Does the rest of America? When Hurricane Katrina tore through New Orleans and the Gulf Coast, hundreds of thousands were left behind to suffer the ravages of destruction, disease, and even death. The majority of these people were black; nearly all were poor. The federal government's slow response to local appeals for help is by now notorious. Yet despite the cries of outrage that have mounted since the levees broke, we have failed to confront the disaster's true lesson; to be poor, or black, in today's ownership society, is to be left behind. Displaying the intellectual rigor, political passion, and personal empathy that have won him fans across the color line, Michael Eric Dyson offers a searing assessment of the meaning of Hurricane Katrina. Combining interviews with survivors of the disaster with his deep knowledge of black migrations and government policy over decades, Dyson provides the historical context that has been sorely missing from public conversation. He explores the legacy of black suffering in America since slavery, including the shocking ways that black people are framed in the national consciousness even today. With this call-to-action, Dyson warns us that we can only find redemption as a society if we acknowledge that Katrina was more than an engineering or emergency response failure. From the TV newsroom to the Capitol Building to the***

*backyard, we must change the ways we relate to the black and the poor among us. What's at stake is no less than the future of democracy. A New York Times bestseller. "A funny, intimate, and often jaw-dropping account of life behind the scenes."—People Nurses is the compelling story of the year in the life of four nurses, and the drama, unsung heroism, and unique sisterhood of nursing—one of the world's most important professions (nurses save lives every day), and one of the world's most dangerous, filled with violence, trauma, and PTSD. In following four nurses, Alexandra Robbins creates sympathetic characters while diving deep into their world of controlled chaos. It's a world of hazing—"nurses eat their young." Sex—not exactly like on TV, but surprising just the same. Drug abuse—disproportionately a problem among the best and the brightest, and a constant temptation. And bullying—by peers, by patients, by hospital bureaucrats, and especially by doctors, an epidemic described as lurking in the "shadowy, dark corners of our profession." The result is a page-turning, shocking look at our health-care system.*

*In the tradition of the best writing on human behaviour and moral choices in the face of disaster, physician and reporter Sheri Fink reconstructs five days at New Orleans' Memorial Medical Center during Hurricane Katrina and draws the reader into the lives of those who struggled mightily to*

*survive and to maintain life amidst chaos. After Katrina struck and the floodwaters rose, the power failed, and the heat climbed, exhausted caregivers chose to designate certain patients last for rescue. Months later, several health professionals faced criminal allegations that they deliberately injected numerous patients with drugs to hasten their deaths. Five Days at Memorial, the culmination of six years of reporting, unspools the mystery of what happened in those days, bringing the reader into a hospital fighting for its life and into a conversation about the most terrifying form of health care rationing. In a voice at once involving and fair, masterful and intimate, Fink exposes the hidden dilemmas of end-of-life care and reveals just how ill-prepared we are for the impact of large-scale disasters - and how we can do better. A remarkable book, engrossing from start to finish, Five Days at Memorial radically transforms our understanding of human nature in crisis. First went the power. Then came the water, and for five days, the country's oldest hospital was under siege. The never-before-told story of the heroic doctors, nurses, and patients who fought to survive Hurricane Katrina at Charity Hospital in New Orleans. This book traces a remarkable five-day transformation of an infirm institution, caught in a sea of death and indifference, into an island of care and tenderness. The hour-by-hour recreation of this hospital's final days is one of the most grievous and heroic*

*stories in American history. Jim Carrier, who moved to New Orleans 28 days before Katrina (and lost his home), recreates with emotional and poignant detail the rich, sad and uplifting saga of Charity Hospital.*

*Pulitzer Prize winner Sheri Fink's landmark investigation of patient deaths at a New Orleans hospital ravaged by Hurricane Katrina—and her suspenseful portrayal of the quest for truth and justice. In the tradition of the best investigative journalism, physician and reporter Sheri Fink reconstructs 5 days at Memorial Medical Center and draws the reader into the lives of those who struggled mightily to survive and maintain life amid chaos. After Katrina struck and the floodwaters rose, the power failed, and the heat climbed, exhausted caregivers chose to designate certain patients last for rescue. Months later, several of those caregivers faced criminal allegations that they deliberately injected numerous patients with drugs to hasten their deaths. ***2010 PROSE Award Winner for Nursing & Allied Health Sciences! 2010 AJN Book of the Year Award Winner in Public Interest and Creative Works! "The accounts are vivid, colorful, descriptive, intense, and often horrific and give cross-sectional views of life in the trenches during this disaster. This book is a rich primary source for both historians and disaster preparedness planners. It's not only a tribute to the courage of the nurses, but should also serve as a guide for policy planners hoping to avoid less than optimal responses to future crises."--AJN "[T]he book...fascinates simply for its raw documentation of the dreadful events and conditions endured by nurses, doctors, and ancillary staff as they struggled to care for critically ill patients without electricity, running water, air conditioning systems, and other resources. Five years after the levees broke, the horror and chaos of Katrina is still fresh in these accounts. Through the stories, readers are transported into the hospitals as nurses heroically work together to evacuate babies from NICUs and vented patients from ICU, try to calm patients, family members, and coworkers, and make do with the equipment and supplies they've got."--National Nurse "Don't ever think that this can't happen to***

*you. You are going to read this and it's going to sound like we created this scenario, but this is a real scenario that happened." --Pam, Memorial Medical Center "Everything that was battery operated eventually died. There were no monitors...we tried to take care of people in the most humane way possible." --Lois, Lindy Boggs Medical Center Nursing in the Storm: Voices from Hurricane Katrina takes you inside six New Orleans hospitals-cut off from help for days by flooding-where nurses cared for patients around the clock. In this book, nurses from Hurricane Katrina share what they did, how they coped, what they lost, and what they are doing now in a city and health care infrastructure still rebuilding, still in jeopardy. In their own words, the nurses tell what happened in each hospital just before, during, and after the storm. Danna and Cordray provide an intimate portrait of the experience of Katrina, which they and their colleagues endured. Just a few of the heroic nurses you'll find inside: Rae Ann and twenty others, including her husband and children, who wait on a hospital roof for help to come Lisa, in the midst of caring for patients, who has not heard from her husband in 5 days Roslyn, who has 800 people in her hospital when the power generators shut down Linda, who uses bed sheets to write out help messages on a hospital roof, hoping someone will see them The book also discusses how to plan and prepare for future disasters, with a closing chapter documenting the*

***"lessons learned" from Katrina, including day-to-day health care delivery in a city of crisis. This groundbreaking work serves as a testament to nurses' professionalism, perseverance, and unwavering dedication.***

***The harrowing story of the most destructive American wildfire in a century. There is no precedent in postwar American history for the destruction of the town of Paradise, California. On November 8, 2018, the community of 27,000 people was swallowed by the ferocious Camp Fire, which razed virtually every home and killed at least 85 people. The catastrophe seared the American imagination, taking the front page of every major national newspaper and top billing on the news networks. It displaced tens of thousands of people, yielding a refugee crisis that continues to unfold. Fire in Paradise is a dramatic and moving narrative of the disaster based on hundreds of in-depth interviews with residents, firefighters and police, and scientific experts. Alastair Gee and Dani Anguiano are California-based journalists who have reported on Paradise since the day the fire began. Together they reveal the heroics of the first responders, the miraculous escapes of those who got out of Paradise, and the horrors experienced by those who were trapped. Their accounts are intimate and unforgettable, including the local who left her home on foot as fire approached while her 82-year-old father stayed to battle it; the firefighter who drove into the***

*heart of the inferno in his bulldozer; the police officer who switched on his body camera to record what he thought would be his final moments as the flames closed in; and the mother who, less than 12 hours after giving birth in the local hospital, thought she would die in the chaotic evacuation with her baby in her lap. Gee and Anguiano also explain the science of wildfires, write powerfully about the role of the power company PG&E in the blaze, and describe the poignant efforts to raise Paradise from the ruins. This is the story of a town at the forefront of a devastating global shift—of a remarkable landscape sucked ever drier of moisture and becoming inhospitable even to trees, now dying in their tens of millions and turning to kindling. It is also the story of a lost community, one that epitomized a provincial, affordable kind of Californian existence that is increasingly unattainable. It is, finally, a story of a new kind of fire behavior that firefighters have never witnessed before and barely know how to handle. What happened in Paradise was unprecedented in America. Yet according to climate scientists and fire experts, it will surely happen again.*

*A Penguin Classic In Monterey, on the California coast, Sweet Thursday is what they call the day after Lousy Wednesday, which is one of those days that are just naturally bad. Returning to the scene of Cannery Row—the weedy lots and junk heaps and flophouses of Monterey, John Steinbeck once*

*more brings to life the denizens of a netherworld of laughter and tears—from Doc, based on Steinbeck’s lifelong friend Ed Ricketts, to Fauna, new headmistress of the local brothel, to Hazel, a bum whose mother must have wanted a daughter. This Penguin Classics edition features an introduction and notes by Robert DeMott. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.*

*A brutally frank memoir about doctors and patients in a health care system that puts the poor at risk. No Apparent Distress begins with a mistake made by a white medical student that may have hastened the death of a working-class black man who sought care in a student-run clinic. Haunted by this error, the author—herself from a working-class background—delves into the stories and politics of a medical training system in which students learn on the bodies of the poor. Part confession, part family history, No Apparent Distress is at once an indictment of American health care and a deeply moving tale of one doctor's coming-of-age.*

*Crow and Weasel, two young men from the northern plains, set out to travel farther than their people have ever traveled, crossing rivers and mountains, encountering danger, and learning the meaning of friendship.*

*In the span of five violent hours on August 29, 2005, Hurricane Katrina destroyed major Gulf Coast cities and flattened 150 miles of coastline. But it was only the first stage of a shocking triple tragedy. On the heels of one of the three strongest hurricanes ever to make landfall in the United States came the storm-surge flooding, which submerged a half-million homes—followed by the human tragedy of government mismanagement, which proved as cruel as the natural disaster itself. In *The Great Deluge*, bestselling author Douglas Brinkley finds the true heroes of this unparalleled catastrophe, and lets the survivors tell their own stories, masterly allowing them to record the nightmare that was Katrina. Hurricane Katrina shredded one of the great cities of the South, and as levees failed and the federal relief effort proved lethally incompetent, a natural disaster became a man-made catastrophe. As an editor of New Orleans' daily newspaper, the Pulitzer Prize—winning *Times-Picayune*, Jed Horne has had a front-row seat to the unfolding drama of the city's collapse into chaos and its continuing struggle to survive. As the Big One bore down, New Orleanians rich and poor, black and white, lurched from giddy revelry to mandatory evacuation. The thousands who couldn't or wouldn't leave initially congratulated themselves on once again riding out the storm. But then the unimaginable happened: Within a day 80 percent of the city was under water. The rising tides chased horrified*

*men and women into snake-filled attics and onto the roofs of their houses. Heroes in swamp boats and helicopters braved wind and storm surge to bring survivors to dry ground. Mansions and shacks alike were swept away, and then a tidal wave of lawlessness inundated the Big Easy. Screams and gunshots echoed through the blacked-out Superdome. Police threw away their badges and joined in the looting. Corpses drifted in the streets for days, and buildings marinated for weeks in a witches' brew of toxic chemicals that, when the floodwaters finally were pumped out, had turned vast reaches of the city into a ghost town. Horne takes readers into the private worlds and inner thoughts of storm victims from all walks of life to weave a tapestry as intricate and vivid as the city itself. Politicians, thieves, nurses, urban visionaries, grieving mothers, entrepreneurs with an eye for quick profit at public expense—all of these lives collide in a chronicle that is harrowing, angry, and often slyly ironic. Even before stranded survivors had been plucked from their roofs, government officials embarked on a vicious blame game that further snarled the relief operation and bedeviled scientists striving to understand the massive levee failures and build New Orleans a foolproof flood defense. As Horne makes clear, this shameless politicization set the tone for the ongoing reconstruction effort, which has been haunted by racial and class tensions from the start. Katrina was a catastrophe*

*deeply rooted in the politics and culture of the city that care forgot and of a nation that forgot to care. In Breach of Faith, Jed Horne has created a spellbinding epic of one of the worst disasters of our time.*

*A brave, intimate, beautifully crafted memoir by a survivor of the tsunami that struck the Sri Lankan coast in 2004 and took her entire family. On December 26, Boxing Day, Sonali Deraniyagala, her English husband, her parents, her two young sons, and a close friend were ending Christmas vacation at the seaside resort of Yala on the south coast of Sri Lanka when a wave suddenly overtook them. She was only to learn later that this was a tsunami that devastated coastlines through Southeast Asia. When the water began to encroach closer to their hotel, they began to run, but in an instant, water engulfed them, Sonali was separated from her family, and all was lost. Sonali Deraniyagala has written an extraordinarily honest, utterly engrossing account of the surreal tragedy of a devastating event that all at once ended her life as she knew it and her journey since in search of understanding and redemption. It is also a remarkable portrait of a young family's life and what came before, with all the small moments and larger dreams that suddenly and irrevocably ended.*
