

From Which Nothing Is Hidden

USA TODAY bestselling author Kathryn Shay spent five years riding fire trucks with a large city fire department, eating in their firehouses and interviewing hundreds of America's Bravest. Read the novels that resulted from her intense relationship with firefighters! “Shay writes an emotion-packed story. With angst and some hot sex, this dramatic tale also has a nice touch of humor.” RT Book Reviews Ian Woodward, one of the firefighter heroes of the 9/11 terrorist attack, lost the use of his legs on that horrific day. When Ian starts teaching at the Hidden Cove Fire Academy, he finds meaning in his life again. But he vows never to accept the love of beautiful Broadway star Lisel Loring—until a deluded fan starts stalking her. Disgraced cop, Rick Ruscio becomes her bodyguard, but it’s his community service at a local preschool, where he meets teacher Faith McPherson, that completely turns his life upside down. Both men must deal with their issues and accept the strong women who love them. "The talented Shay offers another heartwarming tale of brave men and women." Booklist “I was profoundly moved by this book in a way that I haven't often been moved by a romance novel. It speaks of redemption, forgiveness and the transcendent healing power of love. I know that I will be reading this one again. All About Romance

"His reputation for fast-moving and colourful SF writing is unmatched by anyone in Britain." Michael MoorcockFrom the author of the bestselling Dumarest saga!SPACESHIP 13 - In a future where nation-like conglomerates mine the moon for precious minerals, Dale Amber, the unscrupulous shipping magnate, faces commercial ruin -unless, that is, he can find a pilot to deliver a volatile shipment to buyers on the moon. Manoeuvred by circumstance and militant unions, his own son is forced to fly the dangerous Spaceship 13. HIDDEN TREASURE OF KALIN - An atomic war plunges mankind back to barbarism, and from the wastes rises the merciless tribal king, Kalin. The ancient machines and their knowledge are lost, all but to a few Readers who are charged with protecting and reading a cache of books in the vain hope of rediscovering the ancient secrets.FREIGHT - Venus has been terraformed and the air made breathable. Venusian mushrooms, which proliferate the planet are sought for their rejuvenating narcotic oil. Passage back to Earth is costly and the workers find themselves exiled on Venus for life, but will they ever escape? HOMECOMING - A Spaceman returning to Earth brings with him a doll intended for his first child, born during his absence in space. But as he arrives his family is nowhere to be seen, their home is derelict and the nursery deserted. Where could his family be?

I: Reality and Subjectivity explains the very essence of consciousness as it evolved from its primordial appearance as life on earth, on up through evolution as the human ego, and hence, the transcendence of the ego as the spiritual Reality of Enlightenment and the Presence of Divinity. The uncommon clarity and lucidity with which the highly evolved subject matter is presented facilitates the reader's understanding and comprehension. The nature of consciousness is described in terms that recontextualize and simplify the spiritual process. The nonlinear reality of the enlightened sage is thereby made comprehensible to the reasoning mind.

Fooled by Randomness is a standalone book in Nassim Nicholas Taleb’s landmark Incerto series, an investigation of opacity, luck, uncertainty, probability, human error, risk, and decision-making in a world we don’t understand. The other books in the series are The Black Swan, Antifragile, Skin in the Game, and The Bed of Procrustes. Fooled by Randomness is the word-of-mouth sensation that will change the way you think about business and the world. Nassim Nicholas Taleb-veteran trader, renowned risk expert, polymathic scholar, erudite raconteur, and New York Times bestselling author of The Black Swan-has written a modern classic that turns on its head what we believe about luck and skill. This book is about luck-or more precisely, about how we perceive and deal with luck in life and business. Set against the backdrop of the most conspicuous forum in which luck is mistaken for skill-the world of trading-Fooled by Randomness provides captivating insight into one of the least understood factors in all our lives. Writing in an entertaining narrative style, the author tackles major intellectual issues related to the underestimation of the influence of happenstance on our lives. The book is populated with an array of characters, some of whom have grasped, in their own way, the significance of chance: the baseball legend Yogi Berra; the philosopher of knowledge Karl Popper; the ancient world’s wisest man, Solon; the modern financier George Soros; and the Greek voyager Odysseus. We also meet the fictional Nero, who seems to understand the role of randomness in his professional life but falls victim to his own superstitious foolishness. However, the most recognizable character of all remains unnamed-the lucky fool who happens to be in the right place at the right time-he embodies the “survival of the least fit.” Such individuals attract devoted followers who believe in their guru’s insights and methods. But no one can replicate what is obtained by chance. Are we capable of distinguishing the fortunate charlatan from the genuine visionary? Must we always try to uncover nonexistent messages in random events? It may be impossible to guard ourselves against the vagaries of the goddess Fortuna, but after reading Fooled by Randomness we can be a little better prepared. Named by Fortune One of the Smartest Books of All Time A Financial Times Best Business Book of the Year INSTANT NEW YORK TIMES BESTSELLER A Science News favorite science book of 2019 As you read these words, copies of you are being created. Sean Carroll, theoretical physicist and one of this world’s most celebrated writers on science, rewrites the history of 20th century physics. Already hailed as a masterpiece, Something Deeply Hidden shows for the first time that facing up to the essential puzzle of quantum mechanics utterly transforms how we think about space and time. His reconciling of quantum mechanics with Einstein’s theory of relativity changes, well, everything. Most physicists haven’t even recognized the uncomfortable truth: physics has been in crisis since 1927. Quantum mechanics has always had obvious gaps—which have come to be simply ignored. Science popularizers keep telling us how weird it is, how impossible it is to understand. Academics discourage students from working on the "dead end" of quantum foundations. Putting his professional reputation on the line with this audacious yet entirely reasonable book, Carroll says that the crisis can now come to an end. We just have to accept that there is more than one of us in the universe. There are many, many Sean Carrolls. Many of every one of us. Copies of you are generated thousands of times per second. The Many Worlds Theory of quantum behavior says that every time there is a quantum event, a world splits off with everything in it the same, except in that other world the quantum event didn't happen. Step-by-step in Carroll’s uniquely lucid way, he tackles the major objections to this otherworldly revelation until his case is inescapably established. Rarely does a book so fully reorganize how we think about our place in the universe. We are on the threshold of a new understanding—of where we are in the cosmos, and what we are made of.

Now that literary critique's intellectual and political pay-off is no longer quite so self-evident, critics are vigorously debating the functions and futures of critique. The contributors to Critique and Postcritique join this conversation, evaluating critique's structural, methodological, and political potentials and limitations. Following the interventions made by Bruno Latour, Eve Kosofsky Sedgwick, Sharon Marcus and Stephen Best, and others, the contributors assess the merits of the postcritical turn while exploring a range of alternate methods and critical orientations. Among other topics, the contributors challenge the distinction between surface and deep reading; outline how critique-based theory has shaped the development of the novel; examine Donna Haraway's feminist epistemology and objectivity; advocate for a "hopeful" critical disposition; highlight the difference between reading as method and critique as genre; and question critique's efficacy at attending to the affective dimensions of experience. In these and other essays this volume outlines the state of contemporary literary criticism while pointing to new ways of conducting scholarship that are better suited to the intellectual and political challenges of the present. Contributors: Elizabeth S. Anker, Christopher Castiglia, Russ Castronovo, Simon During, Rita Felski, Jennifer L. Fleissner, Eric Hayot, Heather Love, John Michael, Toril Moi, Ellen Rooney, C. Namwali Serpell

In this inspiring and incisive offering, Barry Magid uses the language of modern psychology and psychotherapy to illuminate one of Buddhism's most powerful and often mysterious technologies: the Zen koan. What's more, Magid also uses the koans to expand upon the insights of psychology (especially self psychology and relational psychotherapy) and open for the reader new perspectives on the functioning of the human mind and heart. Nothing Is Hidden explores many rich themes, including facing impermanence and the inevitability of change, working skillfully with desire and attachment, and discovering when "surrender and submission" can be liberating and when they shade into emotional bypassing. With a sophisticated view of the rituals and teachings of traditional Buddhism, Magid helps us see how we sometimes subvert meditation into just another "curative fantasy" or make compassion into a form of masochism. For anyone tired of chasing ever-elusive desires, of doing more only to find that more needs doing, and of making more money only to need more money, best-selling author Chin-Ning Chu shows you that life was meant to be easy, if you know the secrets. From the best-selling author of The Working Woman's Art of War, comes an important and timely book about the side of success that most don't know about —the power of selective yielding, of surrendering to a successful destiny, and of getting what you want by not wanting it too much. Using Carl Jung's famous parable of the rainmaker as a framework, Chin-Ning Chu explains universal truths about the nature of effort, success, willpower, detachment, "creating luck," and more. Illustrating the four "secrets of the rainmaker" with rich anecdotes from history, personal experience, and popular culture, Ching-Ning explains how to create success by attaining inner harmony, how to partner effort with ease, how to make peace with time, and how to stop reacting and start restfully controlling the events of your life.

Learn a system of persuasive communication and goal-achieving techniques for business and life. Examples from the lives of prominent success stories include Walt Disney and Oprah. A rich collection of quotations stimulates the reader’s imagination, ranging from Benjamin Franklin to Steve Jobs.

Encourage your child to play hidden pictures in order to encourage object constancy skills, which fules the ability to determine pictures based on their features. This means that regardless of how an artist interprets an apple, your child will also recognize it as an apple. So what are you waiting for? Play hidden pictures today!

The Eye of the IFrom Which Nothing Is Hidden

Ludwig Wittgenstein once said: 'I am not a religious man, but I cannot help seeing every problem from a religious point of view.' This study, the last work of the distinguished philosopher Norman Malcolm, is a discussion of what Wittgenstein may have meant by this and its significance for philosophy. The book concludes with a critical discussion of Malcolm's essay by Peter Winch.

A tour of some of the world's most secretive places and organizations addresses various conspiracy theories and hidden histories for locations ranging from Area 51 and Yale's Skull and Bones to the Mount Weather Emergency Operations Center and Germany's Wewelsburg Castle.

From "one of the most significant figures of the last generation of fantasy", comes Francesco Dimitri's debut novel in English, an enthralling and seductive fantasy following four old friends and the secrets they keep. Four old school friends have a pact: to meet up every year in the small town in Puglia they grew up in. Art, the charismatic leader of the group and creator of the pact, insists that the agreement must remain unshakable and enduring. But this year, he never shows up. A visit to his house increases the friends' worry; Art is farming marijuana. In Southern Italy doing that kind of thing can be very dangerous. They can't go to the Carabinieri so must make enquiries of their own. This is how they come across the rumours about Art; bizarre and unbelievable rumours that he miraculously cured the local mafia boss's daughter of terminal leukaemia. And among the chaos of his house, they find a document written by Art, The Book of Hidden Things, that promises to reveal dark secrets and wonders beyond anything previously known. Francesco Dimitri's first novel written in English, following his career as one of the most significant fantasy writers in Italy, will entrance fans of Elena Ferrante, Neil Gaiman and Donna Tartt. Set in the beguiling and seductive landscape of Southern Italy, this story is about friendship and landscape, love and betrayal; above all it is about the nature of mystery itself.

David R. Hawkins, M.D., Ph.D., was renowned as a physician, lecturer, and researcher of consciousness. But he 's perhaps most revered for his books, particularly the seminal Power vs. Force, which has been translated into 25 languages and sold over a million copies. Success Is for You uses many of the concepts that fans of Dr. Hawkins will recognize and applies them to the world of business and the psychology of success. Expanding upon the illuminating discussion of the attractor patterns of success from Power vs. Force, this remarkable never-before-published book pulls back the curtain on the inner workings of the successful mind. For, truly, success, according to Dr. Hawkins, is an attitude we inhabit, rather than a goal we strive for. New readers will find this to be a perfect introduction to an incredible teacher and foremost expert on mental processes, providing profound insights and real-world examples to help anyone focus on—and consequently achieve—what they desire. This fascinating book reveals: • The causality formula for success (and deconstruction of so-called failure) • How goodwill can actually turn to profit • Nine acid-test steps to determine our mode of being • How to "get to the top" (and why the destination is really our starting point) Yet its scope ranges far beyond a mere how-to manual. As Dr. Hawkins says, "Having facts and know-how . . . does not guarantee success. There are other factors involved. It is these other secret factors that we are going to explore." The secret factors—the heart-centered power principles underlying success—are decoded here . . . delivering an eternal message of possibility for us all.

In the wake of a meteor storm, a 15 year old boy discovers a very unusual stone in his backyard. It's a stone unlike anything he has ever seen before, with six vertical lines engraved into it. He soon discovers that the stone has the power to resurrect the dead, but only six may return. However, with each person that is resurrected, the boy unknowingly begins to unlock an ancient evil that has been waiting centuries to be released.

It's a wheely wonderful world! But why are you seeing just the dotted outlines of it? Create the pictures by connecting the dots one at a time. Working on dot to dots help to improve hand to eye coordination, fine motor skills, and imagination. You will be connecting the dots based on their numbers so you can use this activity to boost counting a

Raised in the sweltering savannas of Zimbabwe, Thando leads a typical life for a middle-class African girl. She attends school and church. She loves American television shows and American music. Thando lives in a happy household with a wonderful family, and has never wanted for love. But Thando holds a dark secret in her heart. For most of her life, God has hidden away these memories, locked them inside her until the day she was strong enough to bear them again... A true story of loss and hardship, of hope and rebirth. After years of abuse at the hands of men she should have been able to trust, Thando uses her bleak history to bring hope and healing to others.

A two-hundred-year-old curse. A tangled thread of mental illness. A growing list of Ross family women dying young. The house where it all began, Desolate Ridge, holds all the secrets. Nothing Hidden Ever Stays is HR Mason's debut gothic suspense.

Discusses the forces that people can control versus the unseen, uncontrollable powers which actively govern many lives.

All his life 15-year-old Tristan has tried to cope with hearing the thoughts of others. But that was child's play. When an old woman appears with a murderer hot on her trail. Tristan is thrust into a world of trickery and manipulation. Now, Tristan must find the possessed emerald he was destined to protect and learn to control powers he never knew he had while secret societies track his every move

On the Damned World, it's every man for himself. Only it's not just mankind who dwells here . . . The Earth of the future is not one you'd recognize. Creatures previously thought to be simply myth- vampires, two-legged dragons, abominable snowmen, and nine other races-have overrun the planet and made it their own. Humanity is nearly extinct. But now the Twelve Races have discovered that their own fortunes are inextricably linked with the remnants of the human race. And so one of the last remaining humans, a young slave girl named Jepp (who holds the key to the future of the world), is on her way to a fateful meeting with the most powerful creature on the face of the planet. Except the question isn't what will happen when she gets there . . . but if she's going to make it there alive.

Lock the doors and set the alarm, but it won't help. A dark force lurks in Gabriel's cold heart and nothing can stop him. He hides in the shadows of life, stalking young women and carrying them away to his secret hiding place, where he finishes them off with his sharp blade. He's brilliant, invisible, and his current obsession is high school golden girl, Harper Flagg. Sixteen years ago he murdered her mother and now he's stalking her. Harper has spent her whole life training for this confrontation. She's an accomplished marksman, an expert in self-defense, and she's dying to come face-to-face with the serial killer known as the Bad Guy. Her wish is about to come true.Game on.

This is the second volume of a trilogy that began with Power vs. Force and will be completed in the year 2002 by the publication of the third volume entitled I: Reality and Subjectivity. The Eye of the I (which calibrates at 950) is more advanced than Power vs. Force (which calibrates at 850) and brilliantly reveals the very core of the spiritual process critical to the state of Enlightenment. The intrinsic power of the information provided in this startling classic is sufficient of itself to elevate the consciousness of the reader. This likelihood has been anticipated and provided for by preparatory recontextualizations. Included are verbatim dialogues with advanced students, instructions, and explanations that illuminate the spiritual teachings. The Eye of the I is a brilliant work that dissolves the barriers between the known and the unknown, between science and spirituality, and between the Newtonian linear paradigm of the ego and the nonlinear reality of Enlightenment. With the resolution of the self, the Self shines forth and reveals one's true identity.

The hunt for a dinosaur skeleton buried in the Badlands, bitter rivalries, and a forbidden romance come together in this beautifully written new novel that's Romeo and Juliet meets Indiana Jones. Somewhere in the Badlands, embedded deep in centuries-buried rock and sand, lies the skeleton of a massive dinosaur, larger than anything the late nineteenth century world has ever seen. Some legends call it the Black Beauty, with its bones as black as ebony, but to seventeen-year-old Samuel Bolt it's the "rex", the king dinosaur that could put him and his struggling, temperamental archaeologist father in the history books (and conveniently make his father forget he's been kicked out of school), if they can just quarry it out. But Samuel and his father aren't the only ones after the rex. For Rachel Cartland this find could be her ticket to a different life, one where her loves of science and adventure aren't just relegated to books and sitting rooms. Because if she can't prove herself on this expedition with her professor father, the only adventures she may have to look forward to are marriage or spinsterhood. As their paths cross and the rivalry between their fathers becomes more intense, Samuel and Rachel are pushed closer together. And with both eyeing the same prize, their budding romance seems destined to fail. But as danger looms on the other side of the hills, causing everyone's secrets to come to light, Samuel and Rachel are forced to make a decision. Can they join forces to find their quarry-and with it a new life together-or will old enmities and prejudices keep them from both the rex and each other?

Poetry. "HIDDEN DEATH, HIDDEN ESCAPE is an occulted text osmotically invading the public soil by spawning its cyclic seed in the most fertile territory. By an ingenious language, Liviu Georgescu's wayward helium imagination becomes an existential zone diving in the darkened nautical scars of being. His poems transmute the waters from the Transylvanian Alps to a scorpion running through a purgatorium. His poetry, in contrast to quotidian description, opens up a visionary fervor invoking a tradition which runs from Blake and Holderlin through T.S. Eliot and Breton into the present"-Will Alexander.

This is the second volume of a trilogy whose other titles are Power vs. Force and I: Reality and Subjectivity. The Eye of the I brilliantly reveals the very core of the spiritual process critical to the state of Enlightenment. The intrinsic power of the information provided in this startling classic is sufficient of itself to elevate the consciousness of the reader. This likelihood has been anticipated and provided for by preparatory recontextualizations. Included are verbatim dialogues with advanced students, instructions and explanations that illuminate the spiritual teachings. The Eye of the I is a brilliant work that dissolves the barriers between the known and the unknown, between science and spirituality, and between the Newtonian linear paradigm of the ego and the nonlinear reality of Enlightenment. With the resolution of the self, the Self shines forth and reveals one's true identity.

A young woman with amnesia tries to rebuild her life, but she CA't escape the evil forces calling to her from the other side of the mirror. Or their warnings that something is coming for her.

Three Amish best friends. Three hurting hearts. One quilt that binds them together. Emma Stolfus has never been courted or kissed, and now that she's thirty, it has become her place as the family's last unmarried daughter to look after her elderly mother. But in the dark hours while Mamm is asleep, Emma writes letters and essays for Amish periodicals, short stories for her nieces and nephews, and, secretly, a novel just for herself. After she enters the book in a writing contest, a New York literary agent takes an interest not only in her work, but in her as an Amish woman. Emma takes the train all the way to the city to meet him. When she returns, something about her is different-and the men of her Amish community suddenly notice the shy spinster in a way they never did before. But how can she settle for second best when her heart made its first choice long ago? She's been in love for years with a man she can never have. Only her friends, Amelia and Carrie, know the truth Emma shares while they work together on their quilt. Only they will understand when an old tragedy comes to light that will either hurt or heal ... and reveal Emma's hidden life. "Any book that can both entertain and leave me thinking is a book worth reading! Adina Senft is quickly becoming one of my favourite writers of Amish fiction." -Christian Fiction Addiction on The Hidden Life This is the second edition. The first edition was published by Hachette FaithWords in 2012.

Crafted with all the skills that have made his previous books bestsellers, The Book of Secrets will be essential reading for Deepak Chopra's huge number of followers worldwide, and also appeal to everyone searching for the meaning of life, and looking for answers to the questions: Who Am I? Where Did I Come From? and Why Am I Here? Each of the fifteen chapters discusses a 'secret' - such as: The World Is In You; Transformation Is Not The Same As Change; Death Is Conquered By Dying Every Day; Everything Is Pure Essence. Chopra believes that 'Every life is a book of secrets ready to be opened', and that the only way to discover the answers to these secrets is to delve inside yourself, and cease to be a mystery to yourself. Only by going to 'the still point inside' can you see life as it really is.

"Hidden Mountain Secret Garden: a theological contemplation on prayer" helps the reader discover the riches of mental prayer in the Catholic Tradition. In fact, the images of the "Hidden Mountain" and the "Secret Garden" are ancient metaphors for contemplative prayer, a kind of prayer that begins and ends in faith. This book is especially for those whose prayer is a search for the loving eyes of One who has conquered death. This kind of prayer beholds the wonder of Christ's living but hidden presence in one's highest thoughts and most noble aspirations as well as in one's instinctual urges and deepest longings. The ecstasy of this kind of prayer extends beyond even the vast unexplored horizons of the human heart and opens to an immensity of such excessive mercy that all else is forgotten -- and only love remains. The whole world needs this love: it is the secret garden, the hidden mountain, the inexhaustible riches only prayer knows and an excess of grace only prayer can make known. This is why Blessed John Paul II told the Church not to be afraid to open wide the doors of our hearts to Christ and it is why He told the young people of the world to be proud to proclaim the Gospel of the Lord. For those brave souls who have faithfully open their hearts to the Lord through this discipline of this kind of prayer, every Christian owes you a debt of gratitude. For those who want to join them, this work encourages you along the way -- for the journey you endeavor is at once the most perilous, the most heart-rending and the most wonderful adventure this world has ever known. "Dr. Anthony Lilles has authored an introduction to prayer that is inspiring and encouraging. For those desiring to pray this is a resource that is full of practical advice - written simply and attractively. This book bears the mark of a man - husband, father and teacher - who is not only imbued with the wisdom of the Saints, but who has also, through his own prayer, learned how all of us can, through prayer, foster faith in and love for Jesus and his Gospel."

THOMAS G. WEINANDY, O.F.M., CAP. Executive Director for the Secretariat for Doctrine United States Conference of Catholic Bishops This is a wonderful book. I've taught spiritual theology many years and I wish I had had this text use. In fact, I wish I had written this book. It is scriptural, patristic, historical, theological, mystical, experiential and user friendly. Dr. Lilles takes us through the spiritual journey of prayer, citing Fathers and doctors, saints and even sinners to guide us on our Christian way toward contemplation. Weaving many themes into a harmonious whole, he opens up the life of contemplation for all Christians, our baptismal birthright in a way that is accessible and attractive. This is a book one will read more than once. FR. GILES DIMOCK, O.P., S.T.D University Parish of St. Thomas Aquinas At the University of Virginia In this book we find the real meat of the new evangelization. The church in America will not be renewed by "facts about Jesus" but only through one's choice to let Christ reach the heart and change it from within. It is an ancient message received by only few: Do not be afraid of letting go of what now defines you. Let Christ tell you who you are. Dr. Lilles is one of the ablest guides to lead us through to such a choice. Will I stay with knowledge about Jesus or will I enter the garden of prayer and finally come to know Him!! Do not be afraid to be loved, read this book. DEACON JAMES KEATING, PH.D, Institute for Priestly Formation, Omaha, NE
