

Germany And England

He unearths the stories, the statistics, the footballing trends, and is then able to show how events on the football field have often mirrored the cultural and political identities of the two countries.

This is famous British author Nesta Webster's last-and most suppressed-book, published just prior to the outbreak of the Second World War. It deviated completely from the themes of Webster's earlier works, and dealt exclusively with what she said was the international Jewish lobby's preparations to start another war in Europe.

Excerpt from Germany and England Meanwhile, Prussia, under the lead of the Hohenzollerns, has become the master of all Germany, and, simultaneously With the humiliation of France in 1870, established the German Empire, Which, however, still remains an inland empire. But all the while she has been building up, quietly but steadily, her naval and military power, so as to be ready When the hour should strike, and has succeeded in creating, in her army, a military machine of boundless numbers and of almost invincible power, to Cope With and to crush, if possible, the combined forces of all the other nations of Europe. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

Miranda Seymour tells the remarkable story of England's centuries of profound connection and rivalry with Germany. Her vibrant and heart-breaking history—told through the lives of princes and painters, soldiers and sailors, bakers and bankers, charlatans and saints—reminds us, poignantly, of the powerful bonds many have chosen to forget.

Studienarbeit aus dem Jahr 2010 im Fachbereich Anglistik - Linguistik, Ruhr-Universität Bochum, Sprache: Deutsch, Abstract: Since we all know that football commentaries are made to entertain I want to investigate what metaphors are used to create an entertainment value and if there is a difference in use between the German and the English football commentators. Therefore I stick to the system of conceptual metaphors used by Lakoff/George (Metaphors we live by) and Radden/ Dirven (Cognitive English Grammar). Later on, I will have a special look on the most frequent groups of metaphors and incorporate military metaphors. The data analysed is the match between England and Germany in the World Cup game of 26th October 2010 which was broadcasted live on German and English TV (ARD/BBC). The commentators of this game were Bela Rethy for ARD and Guy Mowbray with co-commentator Mark Lawrenson for BBC."

This 2007 book is a comparative study of the origin of the welfare state in England and Germany, from 1850 to 1914. It presents original conclusions about the differences between British and German approaches. Peter Hennock analyses policies on social security and the public provision of medical care, dealing with public poor relief, industrial injury, with sickness, invalidity and old age, and with unemployment. In each case policies in Britain and in the German Empire are compared for their actual provisions, their consequences and the politics that produced them. He demonstrates that national insurance has played a larger role in Germany than in Britain from the beginning, as it still does today, and that decisions taken before 1914 are crucial to the long-term differences between the welfare state in the two countries. The book will appeal to students and scholars of British and European political history, social history and social policy.

Discusses the types of justice administered in medieval times, how geography and religion shaped it, and its legacy in modern times. This collection of essays examines the similarities and differences between medieval England and Germany at a period of great change in almost all areas of life. It asks a number of fundamental questions which highlight the foundations of a rich common European heritage. What was it that made life in the twelfth century more varied, less peaceful, and less secure than before? How can the parallel developments, changes, and transformations that took place in Latin Europe in the High Middle Ages be related to each other? What answers were found to the challenges of the age in England and Germany? This volume gives the reader an opportunity to see how English-speaking and German scholars approach similar themes. Edited by two leading German medievalists, it includes 17 contributions by eminent scholars from Britain, North America, and Germany. It is divided into 4 sections on modes of communication, war and peace, Christians and non-Christians, and urban and rural developments, and is essential reading for students and scholars of English or German medieval history.

"Macksey's blend of what actually happened and what might have been makes for a piece of writing comparable to Frederick Forsyth at his best." —Jack Higgins "Convincingly described and excellently illustrated." —The Daily Telegraph In June 1940, German troops massed across the Channel, poised for the invasion of Britain. With France defeated and Britain cowed, Hitler seemed ready for his greatest gamble. In this brilliant and compelling alternate history the Germans launch the invasion that, in reality, was never more than a plan. Landing between Dover and Hythe, German troops push inland supported by the Luftwaffe and the impregnable panzers, and strike out towards London. The British, desperate to defeat the invaders, rally and prepare for a crucial confrontation at Maidstone. Realistic, carefully researched and superbly written, this best-selling study is a classic of alternate history and a thought-provoking look at how Britain's war might have been.

German reunification transformed life in East Germany, producing numerous challenges to successful adjustment. This is the product of workshops held in London and Jena and charts the impact of German reunification set against the broader context of social and economic change in England and Germany. The differential effects of change between men and women across the generations are examined, together with the protective role of family as well as the role of education and labour market institutions. In 1996, in the middle of watching an ill-tempered football match between England and Germany, Philip Oltermann's parents tell him that they are going to leave their home city Hamburg behind and move to London. Inspired by his own experience of both

countries, Philip Oltermann looks at eight historical encounters between English and German people from the last two hundred years: Helmut Kohl tries to explain German cuisine to the Iron Lady, the Mini plays catch-up with the Volkswagen Beetle, and Joe Strummer has an unlikely brush with the Baader-Meinhof gang. Keeping Up with the Germans is a witty look at the lighter-side of Anglo-German relations over the last 100 years.
