business and management studies has centered on the relative impact of institutions on the fortunes of firms and nations. However, analyses have primarily focused on institutional effects on societal features, rather than actual firm practices. This volume brings together recent trends in comparative institutional analysis with

across country lines. The authors focus on intra-firm relations, internal diversity within varieties of capitalism, and the uneven and experimental nature of systemic change, all the while employing an impressive level of theoretical rigor and empirical evidence. In a single volume, this text unites soundly based,
