*School and public libraries often provide programs and activities for children in preschool through the sixth grade, but there is little available to young adults. For them, libraries become a place for work—the place to research an assignment or find a book for a report—but the thought of the library as a place for enjoyment is lost. So how do librarians recapture the interest of teenagers? This just might be the answer. Here you will find theme-based units (such as Cartoon Cavalcade, Log On at the Library, Go in Style, Cruising the Mall, Space Shots, Teens on TV, and 44 others) that are designed*

*for young adults. Each includes a display idea, suggestions for local sponsorship of prizes, a program game to encourage participation, 10 theme-related activities, curriculum tie-in activities, sample questions for use in trivia games or scavenger hunts, ideas for activity sheets, a bibliography of related works, and a list of theme-related films. The units are highly flexible, allowing any public or school library to adapt them to their particular needs.*

Together with his mate and dive master Charlie Jenkins, dive charters were always left with thrilling stories of encounters with large toothy predators on every dive trip. But then, a confluence of horrifying events would change both of their lives forever. An act of sabotage and a massive shark, largely unknown in the Gulf of Mexico would leave a trail of death and destruction unheard of by Coast Guard rescuers.*

*Nothing in Sketch and Charlies vast diving experience could have prepared them for the terror that unfolded on that fateful dive with a charter of Wall Street bankers. The continuation of the saga in "part 2", provides the culmination to the shark encounter and an exciting end to the criminal animal rights fanatic that was responsible for so much carnage. A tale of intrigue and excitement, Shark Dive will leave you breathless and wanting for more.*

The Galapagos Islands have captured hearts and captivated imaginations for centuries. Such is their ecological importance that in 1978 the archipelago was declared the first ever World Heritage Site, a testament to our collective desire to preserve the magic and diversity that inspired Darwin. Monty Halls first visited the islands almost twenty years ago and his immediate fascination with their wild beauty would go on to shape the rest of his life. As an explorer, marine biologist, ex-Royal Marine and now President of the Galapagos Conservation Trust, Monty is a passionate advocate for those fighting to save the Galapagos. In 2017, he and his dedicated research team - his wife, Tam, and their two young daughters, Molly and Isla - moved to Santa Cruz to experience just what life is like in the world's most spectacular tourist destination. As weeks turned into months, the Halls family were in turn spellbound by the beauty of the islands and heartbroken by the devastation that humans are inflicting upon them. One stint there was never going to be enough, and just two years later they found themselves heading back, this time staying on one of the remotest and most

challenging islands, diving into the culture of the Galapagos and the desperately needed conservation work taking place there. Written with warmth, humour, and authority, My Family and the Galapagos follows Monty and his family as they navigate life on the most important archipelago on the planet and strive to preserve it for generations to come.
