Information for All! In this day and age, women are expected to have a killer full-time job, time to hang out with friends and family, a successful fitness regime, and oh yeah, glowing skin. According to just about every traditional media source, women have never been more into skincare, and the craze shows no signs of abating. So it's no surprise that in these stressful times, we've turned to skincare not only for hygienic purposes, but as a form of self-care and belonging. However, with more products on the market than ever, the beauty industry can sometimes feel a bit overwhelming and confusing. Do I need a toner? Is it best to use organic products? Should I try Gwyneth's bee sting therapy? Every Woman's Guide to Healthy, Glowing Skin? answers your burning questions and delves into the specifics of all these new treatments and trends—in a way that feels informative and fun! This practical guide makes the material easily understandable for everyone from ultimate multi-step skin gurus to someone venturing out for their first facial. In Chapter 1, you'll start off learning the essentials (think: product layering and “do I really need that vitamin C serum?”), while later on you'll explore special occasion procedures, body creams, and SPF. Plus, you'll learn how to read product labels like an expert and which “classics” are here to stay (say “hello” to your grandma's favorite cold cream). yourself—it'll make a nice addition to any book shelf or coffee table. So go ahead, indulge.

In the twenty-first-century workplace, women are encouraged to step up, lean in, take charge, go for it . . . yet how much has actually changed regarding the makeup of leadership when it comes to adding women's voices? While it's easy to still blame a corporate culture that favors men, seasoned executive Grace Killelea identifies another culprit: a surprising disparity in confidence--with men typically prone to overestimate their abilities, and women too often selling themselves short. For real change to take place within the workforce when it comes to adding more women's voices within leadership, we must get beyond knowing that we simply have the ability as women to speak out, take risks, and fill leadership positions; we must become more confident that we can do those things with excellence!The Confidence Effect moves beyond research, statistics, and cheerleading, and focuses on what's really important: how women can become more confident, one step at a time. While developing the four Rs of Success--relationships, reputation, results, and resilience--women will learn how best to:

- Build circles of influence
- Seize opportunities they normally avoid
- Leverage and promote their skills
- Cultivate executive presence
- Bounce back from setbacks
- And more

You've been encouraged to get in the game your entire life, yet

you remain on the sidelines. Why? Become more confident in who you are and what you can do, and claim the success you deserve!

Let Marianna Olszewski teach you how to love your money instead of running scared from it. Marianna didn't start out rich, happy and fabulous. - Fall in Love with Your Money: Having a cavalier attitude toward money is part of the reason many of us find ourselves in a financial pickle. But when you treat your money with respect, keep track of it and spend and save it wisely your money will always love you back.

and moreWhen I came up with the topic for this book, I started doing research and what I found was Carol Dweck, Ph.D., a psychologist and a pioneering researcher in the field of motivation. She looked at why people succeed (or don't) and how to foster success. With over 6 million views of her TEDx talk, you could say she is an expert in growth mindset vs. fixed mindset. I had never used this terminology before, but I knew there are people in this world who believe they can't and those who believe they can. It has been said by some of the most famous people in the world that if you believe you can or can't, you are right."It doesn't matter who you are, where you come from. The ability to triumph begins with you - always." -Oprah WinfreyYou might be asking yourself, "How can I have the successful woman's mindset? How can I be like Oprah?" or someone else that you see in the media, idolize, or look up to. What I have found interesting in speaking to many women is there really isn't that much of a difference between them and Oprah or somebody else they might find admirable. One of the main differences is associated with their mindset and not believing in themselves.In this book, you will learn the characteristics you can embody to have the success you desire, in your definition. You will also have activities to ask yourself the important questions necessary to get you to your desired level of success. Recognize that the limits you may think you have are many times the limits you place on yourself. This recognition is a large part of your success and will help you implement what you learn in this book.The chapter titles of The Successful Woman's Mindset are:1. She has a Growth Mindset2. She Knows Her Definition of Success3. She Knows Oprah Status is Achievable4. She

Fans of Sophie Kinsella and *The Devil Wears Prada* will love this smart, sexy debut novel of wanderlust. Objectively, Sophie is a success: she's got a coveted job at a top consulting firm, a Manhattan apartment, and a passport full of stamps. It isn't quite what she dreamed of when she was a teenager dog-earing pages in exotic travel guides, but it's secure. Then her best friend bails just hours after they arrive in Hong Kong for a girls' trip, and Sophie meets Carson, a free-spirited, globetrotting American artist. In the midst of their whirlwind vacation romance, Carson invites Sophie to join him on his haphazard journey around the world. While the brief international jaunts she sneaks in between business trips don't feel like enough, Sophie is far too practical to throw away her five-year plan on a whim. Yet Carson's offer forces her to question whether the reliable life she's chosen is really what she wants--and she soon discovers that his feelings for her run deeper than she realized.

Everyone has an opinion, anecdote, or horror story about women and work. Now the acclaimed author of *What the Most Successful People Do Before Breakfast* shows how real working women with families are actually making the most of their time.

“ Having it all ” has become the subject of countless books, articles, debates, and social media commentary, with passions running high in all directions. Many now believe this to be gospel truth: Any woman who wants to advance in a challenging career has to make huge sacrifices. She ’ s unlikely to have a happy marriage, quality time with her kids (assuming she can have kids at all), a social life, hobbies, or even a decent night ’ s sleep. But what if balancing work and family is actually not as hard as it ’ s made out to be? What if all those tragic anecdotes ignore the women who quietly but consistently do just fine with the juggle? Instead of relying on scattered stories, time management expert Laura Vanderkam set out to add hard data to the debate. She collected hour-by-hour time logs from 1,001 days in the lives of women who make at least \$100,000 a year. And she found some surprising patterns in how these women spend the 168 hours that every one of us has each week. Overall, these women worked less and slept more than they assumed they did before they started tracking their time. They went jogging or to the gym, played with their children,

scheduled date nights with their significant others, and had lunches with friends. They made time for the things that gave them pleasure and meaning, fitting the pieces together like tiles in a mosaic—without adhering to overly rigid schedules that would eliminate flexibility and spontaneity. Vanderkam shares specific strategies that her subjects use to make time for the things that really matter to them. For instance, they . . .

- * Work split shifts (such as seven hours at work, four off, then another two at night from home). This allows them to see their kids without falling behind professionally.
- * Get creative about what counts as quality family time. Breakfasts together and morning story time count as much as daily family dinners, and they 're often easier to manage.
- * Take it easy on the housework. You can free up a lot of time by embracing the philosophy of “good enough” and getting help from other members of your household (or a cleaning service).
- * Guard their leisure time. Full weekend getaways may be rare, but many satisfying hobbies can be done in small bursts of time. An hour of crafting feels better than an hour of reality TV.

With examples from hundreds of real women, Vanderkam proves that you don't have to give up on the things you really want. I Know How She Does It will inspire you to build a life that works, one hour at a time.

For too long, women have been told to confine themselves—physically, socially, and emotionally. Eliza VanCort says now is the time for women to stand tall, raise their voices, and claim their space. Women fight the pressure to make themselves small in private, professional, and public spaces. Eliza VanCort, a teacher, consultant, and speaker, provides the necessary tools for women to rewrite the rules and create the stories of their choosing safely and without apology. VanCort identifies the five key behaviors of all “Space Claiming Queens”: use your voice and posture to project confidence and power, end self-sabotage, forge connections, neutralize unsafe spaces, and unite across differences. Through personal narrative, research, and actionable strategies, VanCort provides how-tos on combatting challenges like antimentors and microaggressions and gives advice for building up your “old girls” club, asking for what you’re worth, and owning your space without apology. Bold, fun, and enlightening, this book is birthed from VanCort’s incredible story. Having a mother with schizophrenia forced VanCort to learn to be small and invisible at an

early age, and suffering a traumatic brain injury as an adult required her to rethink communication from the ground up. Drawing on these experiences, and those of real women everywhere, VanCort empowers women to claim space for themselves and for their sisters with courage, empathy, and conviction because “when we rise together, we rise so much higher.”
