Expert writing advice from the editor of the Boston Globe best-seller, The Writer's Home Companion *Dissertation writers need strong, practical advice, as well as someone to assure them that their struggles aren't unique. Joan Bolker, midwife to more than one hundred dissertations and co-founder of the Harvard Writing Center, offers invaluable suggestions for the graduate-student writer. Using positive reinforcement, she begins by reminding thesis writers that being able to devote themselves to a project that truly interests them can be a pleasurable adventure. She encourages them to pay close attention to their writing method in order to discover their individual work strategies that promote productivity; to stop feeling fearful that they may disappoint their advisors or family members; and to tailor their theses to their own writing style and personality needs. Using field-tested strategies she assists the student through the entire thesis-writing process, offering advice on choosing a topic and an advisor, on disciplining one's self to work at least fifteen minutes each day; setting short-term deadlines, on revising and defing the thesis, and on life and publication after the dissertation. Bolker makes writing the dissertation an enjoyable challenge.*

Writing an amazing college admission essay is easier than you think! So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, College Essay Essentials is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun. Her name is Mother of Exiles. From her beacon-hand glows world-wide welcome. "Give me your tired, your poor, your huddled masses. Send these, the homeless, tempest-tost to me." America has lost its way. The strongest of people can be found in the unlikeliest of places. The future of the entire country will depend on them. All across the United States, people scramble to survive new, draconian policies that mark and track immigrants and their children (citizens or not) as their freedoms rapidly erode around them. For the "inked"—those whose immigration status has been permanently tattooed on their wrists—those famous words on the Statue of Liberty are starting to ring hollow. The tattoos have marked them for horrors they could not have imagined within US borders. As the nightmare unfolds before them, unforeseen alliances between the inked—like Mari, Meche, and Toño—and non-immigrants—Finn, Del, and Abbie—are formed, all in the desperate hope to confront it. Ink is the story of their ingenuity. Of their resilience. Of their magic. A story of how the power of love and community out-survives even the grimmest times.

Do you feel stuck in life, not knowing how to make it more successful? Do you wish to become more popular? Are you craving to earn more? NATIONAL BESTSELLER • "A fire-breathing, righteous attack on the culture of superprivilege."—Michael Wolff, author of the #1 New York Times bestseller Fire and Fury, in the New York Times Book Review NOW WITH NEW REPORTING ON OPERATION VARSITY BLUES In this explosive and prescient book, based on three years of investigative reporting, Pulitzer Prize winner Daniel Golden shatters the myth of an American meritocracy. Naming names, along with grades and test scores, Golden lays bare a corrupt system in which middle-class and working-class whites and Asian Americans are routinely passed over in favor of wealthy white students with lesser credentials—children of alumni, big donors, and celebrities. He reveals how a family donation got Jared Kushner into Harvard, and how colleges comply with Title IX by giving scholarships to rich women in “patrician sports” like horseback riding and crew. With a riveting new chapter on Operation Varsity Blues, based on original reporting, The Price of Admission is a must-read—not only for parents and students with a personal stake in college admissions but also for those disturbed by the growing divide between ordinary and privileged Americans. Praise for The Price of Admission “A disturbing exposé of the influence that wealth and power still exert on admission to the nation’s most prestigious universities.”—The Washington Post “Deserves to become a classic.”—The Economist

There are a lot of great advertising books, but none that get down in the dirt with you quite like this one. Thomas Kemeny made a career at some of the best ad agencies in America. In this book he shows how he got in, and how you can do it too. He breaks apart how to write fun, smart, and effective copy-everything from headlines to scripts to experiential activations-giving readers a lesson on a language we all thought we already knew. This book is not a retrospective from some ad legend. It's a book that should be instantly useful for people starting out. A guide for the first few years at a place you'd actually want to work. Traditionally, advertising books have been written by people with established careers, big offices and letters like VP in their titles. This is a book written by somebody still getting his bearings. Someone who has made an extraordinary number of errors in a still short career. Someone who has managed to hang onto his job despite these shortcomings.

Writing, for most of us, is bound up with anxiety. It's even worse when it feels like your whole future—or at least where you'll spend the next four years in college—is on the line. It's easy to understand why so many high school seniors put off working on their applications until the last minute or end up with a generic and clichéd essay. The good news? You already have the “secret sauce” for crafting a compelling personal essay: your own experiences and your unique voice. The best essays rarely catalog how students have succeeded or achieved. Good writing shows the reader how you've struggled and describes mistakes you've made. Excellent essays express what you're fired up about, illustrate how you think, and illuminate the ways you've grown. More than twenty million students apply to college every year; many of them look similar in terms of test scores, grades, courses taken, extracurricular activities. Admissions officers wade through piles of files. As an applicant, you need to think about what will interest an exhausted reader. What can you write that will make her argue to admit you instead of the thousands of other applicants? A good essay will be conversational and rich in vivid details, and it could only be written by one person—you. This book will help you figure out how to find and present the best in yourself. You'll acquire some useful tools for writing well—and may even have fun—in the process.

For all the anxiety that surrounds the college admissions process, one part of the application lies completely within a student's control: the essay. In this book, Rachel Toor--writing instructor and coach at all levels from high school to senior faculty, and former admissions officer at Duke University--shows that the key to writing a successful application essay is learning to present an honest portrait of yourself. This may sound simple but it means unlearning many of the principles taught in high school writing courses, avoiding the traps of mimicking sample essays and writing what you think admissions officers want to hear, and above all being willing to reveal your flaws as well as your strengths on the page. It also means mastering key mechanical issues that can undermine even the most thoughtful pieces of student writing. Toor offers her advice in a lively, humorous, and engaging tone, with stories of real students and their writing struggles and successes scattered throughout. Writers write the way they were taught, which may not suit them at all, making their writing slow, painful, and not what they want to say. Writing Your Way shows you how to create your own unique writing process that magnifies your strengths and avoids your weaknesses. It shows you a multitude of ways to do the five key stages: Idea, Gather, Organize, Draft, and Revise. You can then design your own collection of techniques that work for you. You'll write clearer, faster, and more powerfully, with less effort and suffering. The second half of this book shows you how to create and modify your own voice, one that sounds like the real you, that sounds the way you want agents and publishers and readers to experience you.

"Hazel Hayes writes with such honesty and casual confidence and flowing dialogue, you feel you are overhearing it rather than reading it. The writing sparkles with wit and a poignant emotional reality. I love it."—Matt Haig, bestselling author of The Midnight Library "A smart, touching, time-bending romance. Funny and affecting."—David Nicholls, bestselling author of One Day and Sweet Sorrow For anyone who has loved and lost, and lived to tell the tale, this gorgeously written debut is a love story told in reverse, a modern novel with the heart of a classic: truthful, tragic, and ultimately full of hope. Out of Love begins at the end. A couple call it quits after nearly five years, and while holding a box of her ex-boyfriend's belongings, the young woman wonders: How could they have spent so long together? When did they fall out of love? Were there good times before the bad? These are the questions we obsess over when a relationship ends, even when obsessing can do no good. But instead of moving forward through the emotional fallout of a break-up, Out of Love moves backward in time, weaving together an already unraveled tapestry, from tragic ending to magical first kiss. Each chapter jumps further into the past, mining their history for the days and details that might help us understand love: how it happens and why it sometimes falls apart. Readers of Normal People; Goodbye, Vitamin; and One Day will adore this bittersweet romance, a sparkling debut that you won't want to miss.

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' — Irish Times
